HIGHLIGHTS

Book volumes and periodical subscriptions increased since 1974-75 by more than 4 percent.

Circulations increased less than 1 percent while interlibrary loans increased 6 percent during 1975-76.

Library expenditures totaled nearly 1.2 billion dollars, an 8 percent increase over 1974-75.

Library staff of 56,852 employees in fall 1976 was virtually the same as the previous year.

Mean salaries of librarians, other library professionals, and nonprofessionals were $15,269, $11,991, and $7,878, respectively, in fall 1976.

Library expenditures in 1975-76 were 3.8 percent of education and general expenditures.

Library expenditures per FTE student were $138 in 1975-76 as compared to $141 in 1974-75.

FOREWORD

Surveys of college and university libraries were initiated by the U.S. Office of Education (OE) in 1939. From 1940 to the late 1950's, surveys were conducted at irregular intervals. In 1967, the college and university library survey was included with other surveys of postsecondary education institutions, collectively named the Higher Education General Information Survey (HEGIS). Library surveys were part of HEGIS in 1969, 1971, 1973, 1975, and 1976. Beginning in 1975, all library surveys conducted by the National Center for Education Statistics (NCES) were collectively named the Library General Information Survey (LIBGIS).

This publication continues the series of reports listing basic data received from each institution responding to the college and university library survey. A preliminary report was issued in November 1977, and an analytical report on the 1975 and 1976 surveys will be issued subsequently.

We deeply appreciate the continuing cooperation of the college and university librarians who supplied the data in this report. The cooperation of State coordinators who assisted in the collection and review of data from their States is also appreciated.

ACKNOWLEDGMENTS

Reports based on various portions of the Higher Education General Information Survey (HEGIS) are made possible by the cooperative endeavors of many individuals in the National Center for Education Statistics (NCES). Particular recognition for the preparation of this report is extended to Dr. Stanley V. Smith, former survey director of the college and university library surveys, who planned this study, prepared the questionnaire, and supervised the early stages of data collection. Appreciation is also extended to Mrs. Augustine Rogers and Mrs. Rita Arroyo for their assistance in maintaining receipt control and the follow-up of nonrespondents, and to Ms. Sheila Myers who rendered typing and clerical assistance. Data-processing assistance was very ably provided by members of the Data Systems Branch in NCES.

INTRODUCTION

This report on collections, staffing, expenditures, and circulations in college and university libraries is based on a survey conducted in fall 1976. The survey was a part of the 11th annual Higher Education General Information Survey (HEGIS) and the second annual Library General Information Survey (LIBGIS). Information obtained in the survey and presented in this report relate to two different time periods. Data on collections, student assistance, expenditures, and circulations pertain to the 1975-76 academic year, while data on current periodical subscriptions and staff pertain to fall 1976 when the survey form was being completed by librarians.

The three basic tables in this report present selected data items for each of the libraries responding to the survey and the five text tables present national totals which include imputation for nonresponse.

A subsequent report will present aggregate data by State and by the characteristics of institutions in which libraries are located.

SUMMARY

Collections

Library collections (table A) increased by 4 percent or more over the 1-year period from 1974-75 to 1975 to 1976. Book volumes and book titles increased by 4.7 and 4.0 percent, respectively, in that period. Periodical subscriptions increased by 4.2 percent between fall 1975 and fall 1976.

Collections of government documents increased by 7.0 percent. The category designated as "other library materials", which includes audio-visual titles, increased by 10.6 percent. Circulations increased by less than 1 percent, while interlibrary loans increased by approximately six percent.

Book titles and periodical titles on microform declined in comparison with the previous year -- a rather unlikely finding -- while physical units of microform increased appreciably. Much of the change in the number of titles on microform and physical units of microform during the 1-year period results from the way libraries reported these items rather than real differences in the number of items. A number of libraries reported physical units as titles or vice versa in the 1975 survey and rectified this in the 1976 survey. It appears that these items have frequently been misinterpreted in previous surveys and attempts will be made to clarify this in future surveys.

Expenditures

Operating expenditures (table B) in 1975-76 reached approximately 1.2 billion dollars, an increase of 8.1 percent over 1974-75. Salaries and wages of library staff, which comprise nearly one-half of total operating expenditures, increased by 8.1 percent. There were greater increases in expenditures for fringe benefits for library staff (17.4 percent) and for periodicals (15.4 percent) than for other budgeted items. Expenditures for microforms and for binding each increased by less than 1 percent.

Library Staff

The number of full-time equivalent library staff (tables C & D) was virtually unchanged between fall 1975 and fall 1976, as shown in table C. Full-time-equivalent librarians and other professionals declined slightly, while full-time-equivalent technical/clerical staff and hours of student assistance increased slightly. At all employment levels, women accounted for more full-time equivalents than did men.

1/Includes salary equivalents for contributed services staff.
2/Student wages charged to library budgets only.

Mean salaries of full-time library staff are presented in table D. The data on which the computations of mean salaries are based were reported by libraries and do not include imputation for nonresponse 1/. The mean salary of librarians, which includes the salaries of chief librarians, was $15,316 in fall 1976. The salary of other library professionals was $12,032 and the mean salary of technical/clerical employees was $7,894. The mean salary of men was greater than that of women at each category of position. The differences between the mean salaries of men and women were $3,052, $3,751 and $742 among librarians, other professionals, and technical/clerical staff, respectively.

Management Data

The percent distribution of various categories of library expenditures (table E) remained essentially unchanged from 1974-75 to 1975-76. Expenditures per full-time-equivalent student declined slightly in 1975-76 to $137.70, down from $141.14 in 1974-75. Library expenditures as a percentage of education and general expenditures in colleges and universities remained constant at 3.9 percent over the 1-year period. Full-time-equivalent library staff per 1,000 full-time-equivalent students declined slightly from 7.3 in fall 1975 to 6.6 in fall 1976.

Table E.--Selected management data on college and university libraries: Aggregate United States, 1974-75 and 1975-76

Percentage distribution of library expenditures	1974-75	1975-76
Total operating expenditures	100.0	100.0

FTE nonprofessional library staff per 1,000 FTE students 2/	4.3	3.9

1/ Expenditures for the academic year are related to students in the fall of the same academic year.

2/ Staff and students are as of the fall of the following academic year. Library staff excludes students employed on a hourly basis.

SURVEY UNIVERSE AND RESPONSE

The universe of college and university libraries was derived from the universe of college and universities as defined by the U.S. Office of Education, which enumerates individual institutions and each of the branches of multi-campus institutions. 1/ There were 3,075 institutions and branches in the college and university universe in the 1976-77 academic year. Some of these institutions and branches had no library facilities, while others were affiliates of a joint library. The universe of 2,987 college and university libraries was established from the college and university universe by: (1) removing the institutions and branches of institutions that had no library or were members of joint libraires, and (2) adding the joint libraries. 2/

The following tabulation shows the derivation of the college and university library universe:

Institutional control	College and university universe	No library	Members of joint libraries	Joint libraries	College and university library universe
Public and Private	3,075	57	50	19	2,987
Public	1,467	17	6	3	1,447
Private	1,608	40	44	16	1,540

The list of institutions and branches where the 2,987 libraries are located appear in tables 1 - 3.

Completed questionnaires were received from 2,924 of the 2,987 libraries.

The following tabulation shows response rates by institutional control:

Institutional control	Library universe	Number responding	Percent responding
Public and Private	2,987	2,924	97.9
Public	1,447	1,441	99.6
Private	1,540	1,483	96.3

1/The universe of postsecondary education institutions is defined by the U.S. Office of Education, and published by the National Center for Education Statistics in the Education Directory, Colleges and Universities, 1976-77. HEW publication NCES 77-345. Washington, D.C.: U.S. Government Printing Office, 1977.

2/Joint libraries and member institutions are listed in appendix B.

IMPUTATION PROCEDURES

To obtain national totals for the majority of the data items in the survey, it was necessary to impute responses for: (1) the 63 libraries that did not submit survey forms, and (2) certain individual items that were not provided by respondents. Salaries of library staff, as of October 1976, were not imputed because: (1) information on the many factors that account for variations in salaries was not available, (2) mean salaries in the fall of the survey year were considered a more useful statistic than aggregate salary outlays, and (3) the survey response rate was sufficiently high to provide reliable measures of mean salaries.

Data were imputed for each nonrespondent by substituting data reported by the same library in the fall 1975 survey, when available. If a nonresponding library did not respond to the previous survey, data reported by a library in an institution having characteristics similar to those of the institution in which the nonresponding library was located were used as a basis for imputation. Institutions were judged as being similar if the following characteristics of each were identical or closely approximate:

(1) institutional control (financially supported by: (a) the Federal, a State, or a local government; (b) a religious denomination; or (c) an independent nonprofit or profit-making organization)

(2) institutional level (university, 4-year, or 2-year)

(3) enrollment size

(4) highest degree offered

(5) accreditation in specialized subject fields

(6) geographical location

TABULAR PROCEDURES

The institutions in which the 2,987 academic libraries are located are listed in alphabetical order by State in tables 1 - 3. Institutions within systems and branches of multi-campus institutions are listed with their organizational components, and are designated by brackets in the left margins of the table.

Selected data items are presented in tables 1 - 3 for each of the libraries in the institutions and the branches of multi-campus institutions in the universe. The 50 libraries that are members of the 19 joint libraries are identified by a reference to the name of the joint library to which they belong. Joint libraries are listed in alphabetical order in the various states.

The data items, which were not provided by the respondent, are so indicated by footnotes. These responses were imputed for inclusion in summary totals, but the estimated values are not identified with the names of the nonresponding institutions or branches; hence they are not shown in the listing. However, the imputed data were included in the summary figures presented in tables A, B, C, and E so that national totals could be reported for each data item.

Mean salaries of library staff, presented in table D, were calculated from the data provided by responding libraries and do not include imputation for nonresponse. 1/

1/See the section on Imputation Procedure for an explanation of reasons for not imputing salaries.

CLASSIFICATION OF INSTITUTIONS

The notations in column 2 in each of tables 1 - 3 pertain to the institutional control and level of the institutions or branches, and are translated as follows:

PUB - Public. An institution financially supported by public funds through Federal, State, or a local government.

PRI - Private. An institution financially supported by a religious denomination, or independently operated as either a nonprofit or a profit-making organization.

U - University. An institution that: (a) gives considerable stress to graduate instruction, (b) confers undergraduate and graduate degrees in a variety of liberal arts fields, and (c) has at least two professional schools that are not exclusively technological.

FG - 4-year institutions with graduate programs. A 4-year institution, not classified as a university, offering programs leading to graduate or other postbaccalaureate degrees, including first-professional degrees.

FN - 4-year institutions with no graduate programs. A 4-year institution, not classified as a university, offering no degrees beyond the bacccalaureate.

T - 2-year institution. An institution offering at least 2 but fewer than 4 years of college-level education.

IF NOT APPLICABLE, CHECK HERE ☐

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

HIGHER EDUCATION GENERAL INFORMATION SURVEY
AND
LIBRARY GENERAL INFORMATION SURVEY

COLLEGE AND UNIVERSITY LIBRARIES, FALL 1976
DEFINITIONS AND INSTRUCTIONS

(OMB No. 51-R1122)

Please read the following explanations and instructions before completing this form. Detach this portion and mail the completed form either directly to the Department of Health, Education, and Welfare, Education Division, National Center for Education Statistics, ATTENTION: Room 2163-LIBGIS, 400 Maryland Avenue, S.W., Washington, D.C. 20202, or to the HEGIS coordinator, if there is a HEGIS coordinator in your State.

In this form, basic data are requested on the collections, staff, expenditures, and developmental areas for college and university libraries. The compilations of these data have proved to be valuable tools for administrators, chief librarians, and others concerned with the improvement of library services to higher education. The data also will assist in the administration of Title II of the Higher Education Act and other programs sponsored by State and Federal agencies.

GENERAL INSTRUCTIONS

1. LIBRARY. For the purpose of this survey, a library is defined as an organized collection of printed, microform, and audiovisual materials which, (a) is administered as a unit, (b) is located in a designated place, and (c) makes printed, microform, and audiovisual materials as well as necessary equipment and services of a staff accessible to students and to faculty.

2. LIBRARY UNITS COVERED. Report consolidated data for all library units of your campus, including medical school libraries and law school libraries, and for all library services provided by your library to clientele of your own institution as well as to clientele outside of your institution.

Fill out a separate form for the main campus and for each branch, campus, or other entity separately certified (with its own individual identification code) by the Accreditation and Institutional Eligibility Unit of the U.S. Office of Education, and listed separately in the *Education Directory: Higher Education.*

Do not fill out separate forms for extension centers and research installations. Information concerning extension center libraries and research installation libraries should be reported on the form for the main campus; in the case of administratively equal campuses of a multi-campus institution, extension center libraries and research installation libraries should be reported on the form for the most closely related campus. Data on library services in separately budgeted research ("R and D") centers should be included on the form for the appropriate campus.

If it is necessary to omit library data for any part of your campus, such as a law school library or a medical school library, write the name and address of the library unit(s) omitted from this report in item 6, page 1. Do not use item 6, page 1, to list library units whose data you included on this form.

3. TIME PERIOD COVERED. One period of time (academic year 1975-76) and two points of time (end of academic year 1975-76 and fall 1976) are involved in this survey.

4. NEED FOR ESTIMATES. If an exact figure is not available for a particular item, but the amount is known to be greater than zero, ENTER AN ESTIMATE OF THE AMOUNT. Indicate the fact that the figure is an estimate by parentheses ( ). Estimates are important if exact data are not available. DO NOT LEAVE ANY ITEMS BLANK. Enter "0" if the appropriate entry for an item is zero or "none." Items left blank may be misinterpreted as zeroes or "none." Request help from your business office in providing library expenditure and contracted salary and wage data.

5. INSTITUTION CODE NUMBER. Enter the institution code number at the upper right hand corner of each page, in item captioned "Institution Code Number." This number is given in the upper right corner of the mailing label.

6. QUESTIONS. If you have questions or need more copies of this form telephone the Survey Director, Dr. Stanley V. Smith (202) 245-8638, Library Surveys Branch, National Center for Education Statistics, 400 Maryland Avenue, SW., Washington, D.C. 20202.

SPECIFIC INSTRUCTIONS

Part I – Periodicals, Fall 1976 and Library Collection 1975-76

7. ADDED DURING ACADEMIC YEAR (column 1). Report the gross number added. Do NOT subtract the number withdrawn.

8. BOOK STOCK (lines 2 and 3). Report the library's cataloged collection(s) of books and other printed materials that are cataloged in the same manner as books and that are interfiled with, or that may be interfiled with, books. For example, a government document or a yearbook that has been cataloged as a book and shelved with books, is to be reported as book stock. Collections of government documents, pamphlets, paperback books, technical reports, manuscripts, memoirs, proceedings, transactions of societies, monographic and publishers' series, etc., that are NOT cataloged in the same manner as books should NOT be reported as book stock. Book stock may be cataloged by the Library of Congress, Dewey Decimal, or any other classification scheme adopted by the library.

9. VOLUMES (lines 2 and 4). For reporting purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, contained in one binding or portfolio, hardbound or paper bound, which has been cataloged, classified, and/or made ready for use.

10. TITLES (lines 3, 5, 6, and 8). For reporting purposes, a title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, discs, slides, or parts. It applies equally to printed materials, such as books and periodicals, as well as to audiovisual materials and microforms.

Report the number of items for which a separate shelflist card has been made. (SHELFLIST: A record of materials in a library, arranged in the order in which the materials stand when they are shelved or stored.) Thus, six copies of the same edition of a title count as one title; two editions of the same title which have been cataloged or recorded separately count as two titles; a set of six items for which six shelflist cards have been made counts as six titles; and two sets of the same edition for which one shelflist card has been made count as one title.

METHOD FOR ESTIMATING THE NUMBER OF TITLES IN THE COLLECTION: A library which does not maintain a title count of its various collections, and that cannot easily count the number of separate shelflist cards, should use the following statistically sound method for estimating this count:

1. Count the number of titles in one inch of the shelflist cards in the shelflist;

2. Repeat step one at random intervals (e.g., count one inch in every foot) throughout the shelflist;

3. Average the number of titles per inch;

4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

11. PRINTED GOVERNMENT DOCUMENTS. A printed government document is any publication in book or serial form bearing a government imprint, e.g., the publications of Federal, State, local, and foreign governments and of world organizations, such as United Nations, European Common Market, etc.

Include printed government documents NOT in separate collections, but cataloged in the same manner as books, in lines 2 and 3. Report printed government documents housed in separate collections in line 4.

12. MICROFORMS (lines 5, 6, and 7). Microforms are materials that have been photographically reduced in size for storage, protection, and inexpensive publication purposes, and which must be read with the help of enlarging instruments. Examples of microforms are: microfilm, microcard, and microfiche. These are also called microcopy and microtext. All forms of microform are to be excluded from lines 2, 3, and 4, but are to be reported in lines 5, 6, and 7).

13. NUMBER OF PHYSICAL UNITS OF MICROFORMS (line 7). Microform holdings which are NOT reported on lines 5 and 6 should be reported here. For reporting purposes, each item of microfiche, microfilm, and microcards should be counted as "One." Microform holdings reported on lines 5 and 6 should NOT be reported here.

14. ALL OTHER LIBRARY MATERIALS (line 8). Report number of titles of all other library materials, such as audio recordings, filmstrips, motion pictures, slides, overhead transparancies, maps, charts, mixed media kits, flat pictures, games, study print sets, etc. (exclude duplicate copies).

Part II – Library Staff, October 1, 1976 and 1975-76

15. HOURS OF STUDENT ASSISTANCE (line 9). Report the total number of hours of student assistance, for students serving on an hourly basis, for the academic year 1975-76.

16. CONTRIBUTED SERVICES STAFF (Section B, line 10 and included in Section C, lines 11 through 17). Contributed services staff should be reported only by religious institutions or institutions affiliated with religious or theological organizations. PUBLICLY CONTROLLED institutions receiving volunteer or contributed services (if any) should EXCLUDE data respecting such services in this report.

17. REGULAR STAFF (included in Section C lines 11 through 17). Regular staff is defined as staff in full-time and part-time positions, usually serving with salary contracts. If your library has staff members who are not students and who are paid on an hourly basis, but who fill positions for which contract salaries are paid in most other libraries, it is essential for the purposes of this survey to report such staff with the regular staff. Students serving on an hourly basis should NOT be included here, but should be reported in line 9.

18. PERSONS IN FILLED POSITIONS (Section C colums (1) through (3)). Report the sum of the number of regular staff and contributed services staff in filled positions on or about October 1, 1976.

19. CONTRACTED SALARIES AND WAGES (Section C columns (4) and (5)). Report the sum of the basic contracted salaries and wages, before any deductions, exclusive of fringe benefits, of the regular staff and the estimated salary equivalents of the contributed services staff in filled positions on or about October 1, 1976. Salaries and wages should be reported on an 11-12 month basis. A salary paid on another basis should be converted to the equivalent 11-12 month salary. For example, a 9-10 month salary should be multiplied by 11/9 to derive the equivalent 11-12 month salary. If a staff member is on sabbatical leave, report his regular salary.

20. ESTIMATED SALARY EQUIVALENTS (Section B, column (2) and included in Section C colums (4) and (5), and Part III, line 20). Report estimated salary equivalents for contributed services staff on the same basis used for reporting contracted salaries and wages - exclusive of fringe benefits, and on an 11-12 month basis.

21. FULL TIME EMPLOYEES (Section C column (1)). Report all paid employees who work the full-time work week established for your library, if your full-time work week is 32 hours or more. However, if your full-time work week is fewer than 32 hours, report all paid employees as part-time employees. Do NOT include volunteer help.

22. PART-TIME EMPLOYEES (Section C, column 2)). Report all paid employees who work less than the full-time work week for your library or who work less than 32 hours per week if your work-week is less than 32 hours (see preceding item 21). Do NOT include volunteer help.

23. FULL-TIME EQUIVALENTS OF PART-TIME EMPLOYEES (Section C, column (3)). To compute "full-time equivalents" (FTE) of part-time employees, take the number of hours worked per week by a part-time employee and divide it by the number of hours in your full-time work week (or by the number of hours considered by your library to be a full-time work week if your full-time work week is less than 32 hours). The following examples illustrate the method of determining full-time equivalents (FTE's), SHOWN TO ONE DECIMAL PLACE:

a. A part-time employee who works 20 hours per week in a libary having a 40 hour work week is computed as follows: 20 divided by 40 equals .5 FTE.

b. A part-time employee who works 20 hours per week in a libary having a 30 hour work week is computed as follows: 20 divided by 30 equals .7 FTE.

c. An employee who works in a library on a full-time basis during only one-half of the fiscal year would be counted as ONE PART-TIME EMPLOYEE, and as .5 FTE.

Students serving on an hourly basis should NOT be reported here, but in line 9. Also, do NOT include volunteers, that is persons who work in the library, but who receive no pay for such work.

24. LIBRARIANS (lines 11 and 12). Staff members doing work that requires professional training and skill in the theoretical and/or scientific aspect of library work, as distinct from its mechanical or clerical aspect.

25. OTHER PROFESSIONAL STAFF (lines 13 and 14). Report persons who though not librarians are in positions normally requiring at least a bachelor's degree (e.g., curators, archivists, computer specialists, information and system specialists, subject bibliographers, media specialists, etc.).

26. TECHNICAL CLERICAL, AND OTHER SUPPORTING STAFF ON THE LIBRARY BUDGET (lines 15 and 16). Report persons in technical assistance, receiving, shipping, storing, secretarial duties, etc., (exclusive of custodial services and of students serving on an hourly basis) who are specifically assigned to the library and are covered in the library budget.

Part III - Library Operating Expenditures, 1975-76

27. AMOUNT (lines 18 through 28). To insure accurate reporting, have your business officer assist with the entries made in these lines. Report only funds expended for the academic year 1975-76, regardless of when the funds may have been received from Federal, State, or other sources. Report all expenditures as whole dollars only, OMIT CENTS.

28. SALARIES AND WAGES OF LIBRARY STAFF (line 18). Report salaries and wages before any deductions, but exclude "fringe benefits" provided by your institution, for all regular library staff (exclude contributed services staff, plant operation and maintenance staff, and students serving on an hourly basis).

29. FRINGE BENEFITS (line 19). Report the sum of all fringe benefits provided by your institution for all library staff whose salaries and wages are

shown in line 18 (exclude contributed services staff, plant operation and maintenance staff and students serving on an hourly basis). Fringe benefits are defined as cash contributions in the form of supplementary or deferred compensation other than salary. The employee's contribution should be excluded when determining the dollar value of fringe benefits. Fringe benefits include: retirement plans; hospitalization, surgical, and medical plans; guaranteed disability income protection plans; tuition plans; housing plans; social security taxes; unemployment compensation plans; group life insurance plans; workmen compensation; and other benefits in-kind with cash options.

30. WAGES OF STUDENTS SERVING ON AN HOURLY BASIS (line 21). Report the expenditures charged to the library for the wages of the students who served on an hourly basis and who were reported in line 9 (exclude all expenditures for wages NOT charged to the library). Report wages before deductions, but exclude "fringe benefits."

31. BOOKS (line 22). Report the expenditures for the books purchased during the 1975-76 academic year, as reported in column (1) lines 2 and 3. It should include preprocessing costs, where applicable, but should exclude expenditures for periodical subscriptions and microforms.

32. PERIODICALS (line 23). Report the expenditures for the periodical subscriptions purchased during the 1975-76 academic year. It should exclude expenditures for books, microforms, and binding and rebinding of periodicals.

33. MICROFORMS (line 24). Report the expenditures for all microforms purchased during the 1975-76 academic year, as reported in column (1) lines 5 through 7.

34. ALL OTHER LIBRARY MATERIALS (line 25). Report the expenditures for all other library materials purchased during the 1975-76 academic year, as reported in column (1) line 8. It should exclude expenditures for books, periodicals, microforms, and binding and rebinding.

35. BINDING AND REBINDING (line 26). Report the expenditures paid to commercial binderies for all binding and rebinding of books and periodicals during the 1975-76 academic year. Do NOT allocate wages, materials, etc., for binding.

36. ALL OTHER LIBRARY OPERATING EXPENDITURES (line 27). The amount reported here should be the difference between the total expenditures (line 28) and the sum of all itemized expenditures (sum of lines 18 through 26) for the 1975-76 academic year. It should include expenditures for travel, rental, leased, insurance, postage and freight, printing, replacement of equipment and furnishings, and membership costs. Exlude expenditures for utilities, plant maintenance and operation, and capital outlay.

37. TOTAL LIBRARY OPERATING EXPENDITURES (line 28). This amount should be the sum of lines 18 through 27.

Part IV – Developmental Areas

Section A - Library Loan Transactions, 1975-76

38. DIAL ACCESS (lines 29 through 31). Exclude dial access transactions from the reporting of library loan transactions. Dial access is the distribution of instruction and educational information by cable and/or microwave link between two or more institutions or organizations. The transmission may take the form of radio, television, or computer data and there may be a computer or computer terminal at any point on the network or communication system. Input and output devices may take the form of teletypewriters or other computer input and output devices.

39. CIRCULATION OF MATERIALS TO LIBRARY USERS (line 29). Report the number of transactions of all materials charged out to library users by members of your staff; exclude transactions by dial access. Users include faculty members, students, and others.

40. INTERLIBRARY LOANS (lines 30 and 31). Report the number of items in original and reproduced format provided to and received from other libraries or library agencies that are NOT under the same administration, in response to specific title, author, and/or subject requests; exclude transactions by dial access.

Section B - Number of Reference and Directional Transactions per Typical Week, Fall 1976

41. TOTAL REFERENCE TRANSACTIONS PER TYPICAL WEEK (line 32). Report the total reference transactions per typical week. A reference transaction is an information contact which involves the knowledge, use, recommendation, interpretation, or instruction in the use of, one or more information sources by a member of the library staff. Information sources include printed and non-printed materials, machine-readable data bases (including computer assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions, and persons both inside and outside the library. A contact that includes both reference and directional services should be reported as one reference transaction. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction, even if the source is not consulted again during this transaction. Duration should not be an element in determining whether a transaction is reference or directional.

42. TOTAL DIRECTIONAL TRANSACTIONS PER TYPICAL WEEK (line 33.). Report the total directional transactions per typical week. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of, any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving directions for locating, within the library, staff, patrons, or physical features; lending pencils, etc.; and giving assistance of a non-bibliographic nature with machines.

43. TYPICAL WEEK (lines 32 through 35). A typical week is a week in which the central or main library is open its regular hours for general users, containing no holidays.

Section C - Library Hours and Days Open Per Week, for General Users, Central or Main Library Only, Fall 1976

44. HOURS OPEN PER TYPICAL WEEK (line 34). This is the total number of hours the central or main library is open for general users in a typical week, and is determined by adding the number of hours the library is open to general users for each day of the typical week. Report the total in whole hours only, omit fractions.

45. DAYS OPEN PER TYPICAL WEEK (line 35). This is the total number of days the central or main library is open to general users in a typical week, and is determined by adding the number of days the library is open to general users for two hours or more for each day of the typical week. Report the total in whole days only, omit fractions.

Section D - Participation in Cooperatives, Consortia, and/or Networks, Fall 1976

46. COOPERATIVES (lines 36 and 37). A cooperative is a group of independent and autonomous libraries banded together by informal or formal agreements or contracts which stipulate the common services to be planned and coordinated by the directors of the cooperative system.

47. CONSORTIA (lines 36 and 37). A consortium is a formal arrangement of two or more libraries not under the same institutional control for joint activities to improve the library service of the participants by cooperation extending beyond traditional interlibrary loan as defined in the National Interlibrary Loan Code of 1968.

48. NETWORKS (lines 36 and 37). A network is a formal organization among libraries for cooperation and sharing of resources, usually with an explicitly hierarchial structure, in which the group as a whole is organized into subgroups with the expectation that most of the needs of a library will be satisfied within the subgroup of which it is a member.

49. DOES YOUR LIBRARY PARTICIPATE IN COOPERATIVES, CONSORTIA, AND/OR NETWORKS WITH LIBRARIES OF OTHER INSTITUTIONS AND/OR AGENCIES? (line 36). Check the "YES" or the "NO" box whichever is correct for your library.

50. IF ANSWER TO ITEM 36 ABOVE IS "YES," GIVE NAME AND LOCATION OF THE COOPERATIVES, CONSORTIA, AND/OR NETWORKS (line 37). If your library participates in more than four cooperatives, consortia, and/or networks, continue the answer to this item on an attached sheet.
